News From Your TOWN HALL

The colored folks of the town still want to build and add on to their properties. A number of applicants are acted on each meeting for spending under \$200 on some building, new or old.

Bill Pierce has had an application for a building permit favorable acted on by the Town Fathers. The permit calls for a building 108 feet by 5 feet to set on the Pahokee Road just south of his present hotel, and in line with it.

This building, according to reports, will be of reinforced concrete and concrete blocks and will be used as a Truckers' Terminal.

A visit to the Mayor's office is very interesting at times. You will come away with a feeling that the colored folks have plenty of money, because it isn't uncommon at all to have half dozen names called with bonds of \$100 to \$150 forfeited. Most of these cases are for carrying concealed weapons, such as knives and firearms, and misusing the automobile. Drinking and driving or reckless driving are frowned on by the Town and these offenders are given heavy fines.

Miscellaneous arguments are of every day occurrence, but these speeders fight shy of the court if they can manage to raise the money and they seem to raise it somehow.

Commissioner McDonald is busy these days getting rock into the town for street repairs. A desk has been made to secure some rock from the banks of the Hillsboro and a bargain secured occasionally.

A plan is being worked on by the Town to build a parking lot on the edge of the quarters in which space will be rented to the farmers and bean contractors in an effort to eliminate some of the confusion about gathering pickers coming in from out of town will then have to conform to local practices in order to get a parking place and secure pickers.

Edgar Hamilton Is Running For Congress In A Service Uniform

Edgar G. Hamilton, West Palm Beach attorney, first to enter the race for Congress in the Sixth Congressional District, announced today that he has volunteered, and left for Camp Blending for induction.

When I began this campaign," he said, "the question as to whether pre-Pearl Harbor fathers would be needed was as yet undecided. Now such fathers are being called into service throughout South Florida, and I feel that if the nation needs us there is only one place for us to be in the armed services."

Formal declaration on his status as a candidate in the Congressional race is withheld until routine matters of induction and preliminary services are established. An outstanding candidate in what is so far a three-man race, he will enter the armed services as a private.

"I wish to represent the new sixth district in Congress," Hamilton stated. "I am not accepted for service, I will most certainly carry on my race to the full extent of my ability, as warranted by the strong support already evidenced through the district."

Hamilton said that his law practice would be carried on by Clyde G. Trammell, partner in the West Palm Beach firm of Hamilton and Trammell.

Dr. Neller Attends Soil Science Meet

Dr. J. R. Neller of the Everglades Experiment Station has returned from the Cincinnati meetings of the National Soil Science and Crops Association where he took part in the proceedings relating to pest and muck. He reports that the public is becoming more and more conscious of the value of peat and muck soils in food, fiber, fat and feed production and many a state would like to have peat lands such as those of the Everglades.

Gov. Holland And Other Dignitaries Attend Festivities

Entire County to Participate With News Reel and Picture Men Busy

Governor Holland and Commissioner of Agriculture Mayo were invited to attend the delivery of the Army Agricultural Achievement "A" award at Belle Glade on November 30th to the County.

It is also expected that other high state officials will be on hand, as well as a generous crowd from the East Coast.

Those in charge of the West Palm Beach arrangements announce that there will be news men, as well as a possible radio hook-up.

After all there is only one county in the world like Palm Beach—our sea coast attracts the wealthy and socially prominent of the highways of the world, and it has no match either in quality or quantity of its type of visitors. In the same County and less than forty miles away is the center of the greatest winter agricultural producing area in the U. S. Now, just to top it off the Army says "Here you, Palm Beach County, we've given to give you this award for an agricultural job well done, and there's no other one in the state to receive it."

The officials have requested that the delivery be made in the Glades and that a pioneer farmer of the Glades be selected to receive this award on behalf of the County.

While detailed information is not yet in the hands of the local Committee, it is tentatively decided to have the ceremonies on the school grounds so that men for bands and marching soldiers may be had.

J. K. Baker, Mayor, has asked the County Board to select a farmer to serve with him on arrangements. The following have been appointed: Luther C. Rader, Howard Henry, Chairman of Commerce; Joe Friedheim, Legion; A. E. Kirchman, Defense Council; Ruth Weigert, PWB and Mrs. J. A. Ball, Women's Club.

Mrs. Nell Scullen Advisor To Civil Service Region

Mr. O. E. Myers, Director, Fifth United States Civil Service Region, has appointed Mrs. Nell Scullen to serve as Chairman of the Commission's local Advisory Committee in Belle Glade.

In announcing Mrs. Scullen's appointment, Mr. Myers stated that the employment needs of Federal agencies involve not only the professional and technical services which will be vital to the War Effort, but also involve every type of worker; administrative, professional and clerical; stenographic and clerical; skilled and unskilled.

To accelerate the program, the Regional Office in Atlanta plans to utilize the services of patriotic women throughout the Region who volunteer to aid the Commission in informing the public of the Government's needs for all types of civilian workers. The Regional Office believes such volunteers by informing the public of the Government's employment needs and by directing them to the nearest office to utilize the services of patriotic women throughout the Region who volunteer to aid the Commission in informing the public of the Government's needs for all types of civilian workers.

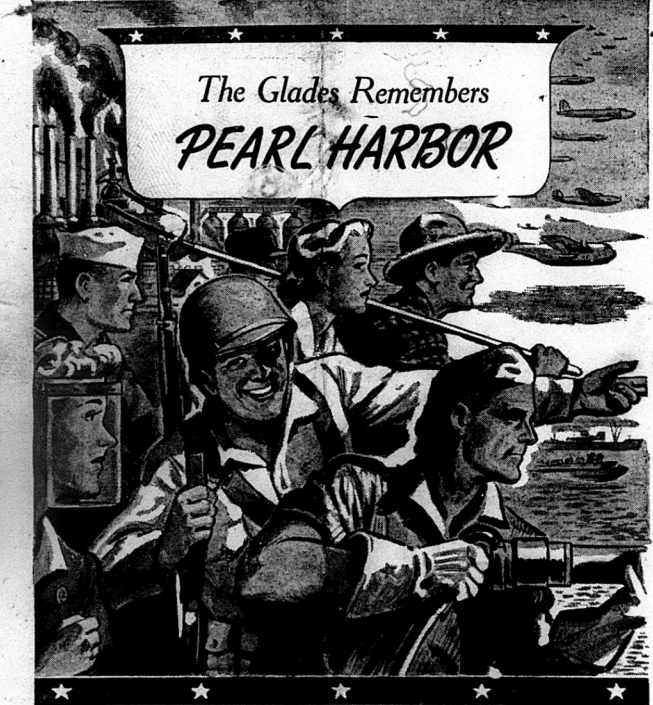

The Fifth U. S. Civil Service Region includes Alabama, Florida, Georgia, South Carolina and Tennessee.

WACS To Parade

The WAC recruiting drive will swing into action Saturday morning at West Palm Beach, with a parade through the business section followed by a band concert in the afternoon in which an all WAC band will furnish the program.

WACS Daytons Beach and Boca Raton will drive serge and Army cars in the parade and all local chairmen of the recruiting office in Atlantic are requested to participate in the parade and ride with the WACS. Volunteer members of the Palm Beach Defense Council will also take part in the activities.

Glades recruits are Mrs. Sadie Berwick in Pahokee and Mrs. Nell Scullen in Belle Glade.

The Glades has converted its efforts into producing the essential foodstuffs our government has asked. Better than twenty-five different vegetables have been shipped in car load lots, to the tune of more than 15,000 cars per season. A majority of the machinery which makes this huge volume possible has either been invented or perfected by Glades men, as well as a possible radio hook-up.

Work And Fight In Ship Repair Units

With the American Navy hunting down the enemy forces in scattered quarters of the globe there is a growing need for experienced craftsmen from South Florida to lend their skills to repair work at the fighting front.

An urgent call for experienced workmen to join the SRU—Ship Repair Unit—was issued at Miami today. These units will be charged with repairing battle damage on the scene and getting the warships back into action as soon as possible.

Skilled workmen such as electricians, carpenters, metal workers, riggers, welders and many others are needed for the SRU. Each SRU team will comprise up to 480 men whose skills will be matched into a smooth working unit capable of repairing serious damage at sea and at advanced bases.

Seabee quotas are full and men with similar skills, but in civilian life, have no idea when they will be needed to keep the fighting fleet in the battles.

Men assigned to SRU will be given pay officer ratings; officer skills will not be needed in the unit. Operations of SRU will be carried on for the most part from destroyer tenders—large warships that are floating machine shops equipped to make repairs as soon as damage is inflicted above or below the water line. Destroyer tenders follow the task and battle forces right through the front lines.

Men between 38 and 50 will follow the same steps as the younger applicants but it will not be necessary for them to go to Blending—they can be inducted into the Navy at the Miami recruiting office and sent directly to indoctrination.

Navy recruiting sub stations are located in the post offices at West Palm Beach, Fort Myers, Key West and Miami on the Sunset Bldg in Fort Lauderdale.

Deadline For Filing Applications Is Set

If you want a job with the State Welfare Board, Florida Industrial Commission and think you can qualify you should file your application with the Merit System Office, Gainesville, Fla., on or before November 20th, according to Mrs. R. L. Murray member of the Welfare Board.

Government Stabilizing Of Bean Picking Prices Indicated By Hearing

RATION DATES

Stamp No. 29 in Book 4 is good for 5 pounds through January 15.

In 17 east coast states A-8 coupons are good through February 8.

Stamp No. 18 good for one pair. Stamp No. 1 on the "airplane" sheet in War Ration Book Three becomes good for one pair Nov. 1.

Meats, Fats Brown stamps G, H, J, and K good through Dec. 4. Brown stamp L becomes good November 21 and remaining good through Jan. 1.

Processed Foods Blue stamps X and Z good through Nov. 20. Green stamps A, B, and C good through April 30.

Ladie-e-e-e s and Gentlemen--

I Want To Be YOUR GOVERNOR

Those who testified displayed a desire to have whatever prices are designated at ceilings be fair to both the picker and the farmer. Two negro bean pickers from the Hutton farm at South Bay testified that they would like to see some definite rate of pay set so that there would be no fear on their part of a higher price being paid in some field than the one they were in.

Suggested prices for flats ranging from \$1.00 to \$1.50.

(Continued on page 4)

Rainy Weather Slows Bean Picking For Several Days

Approximately three days were lost during the past week in the harvest of beans and most of the beans maturing are lost because they are too hard.

Prices have held steady for what dry beans were harvested. Canned beans are in demand at around \$1.35.

Belle Glade Scouts Take First Place

Troop 22 of the Belle Glade Boy Scouts took first place in the field meet held Saturday at Lake Field in Palm Beach. The team came in second and Canal Point third. Scouts from South Bay a newly organized troop, also participated.

Events were knot tying, fire building, pyramid building, and starting fires from friction, also the state working in close harmony, will be the watchword of the Graham program.

Points out that the health, rural and industrial centers serving as market outlets for farm, dairy, beef, and poultry products of the north and west, rural areas of the state, at least another \$4,000,000 can be put into the state treasury without a single additional tax burden.

Envisioning the Florida tourist industry alone as a \$500,000,000 business, Graham said that the state treasury could receive \$50,000,000 of this must be spent for meat, poultry, dairy and farm products. Of this amount, statistics reveal, 10 cents out of every dollar finds its way into the state treasury through gasoline taxes, auto license taxes and other forms.

Rural section leaders already have welcomed the program, he said, for they see it as a solution to the financial problems of the representative groups of heavily populated areas across the state because they see a rural Florida economy that has been in progress for half a century, relieving a drain on the state treasury which will be reflected in future tax bills throughout the state.

Although he has not yet announced his complete program, Senator Graham will submit that in sound business principles lies the solution of the state's financial problems and by application of these principles and without new taxes, state finances at the war's end will be sufficient to complete the too long delayed Everglades project.

The infestation of this insect is kept down in the Everglades by virtue of a parasite that preys on the pest. In Australia they have the insect but not the parasite and to introduce it there Mr. Simmonds is collecting several thousands of these insects in the Everglades for shipment by commercial plane and bomber to Australia.

Continued on page 4

The Empty Milk Bottle
Dairy leaders have again been in Washington discussing effective means of keeping milk production up with increasing demands. The Dairywomen's League Cooperative Association, of New York, again declared that subsidies would not be effective because they would lead to "use of government funds in such a way as to destroy our cherished institutions and our representative form of government."
To be relatively as high, milk in the New York milkshed would have to be raised 35 per cent to equal highs; 25 per cent to equal other farm products in the United States; and 26 per cent to equal weekly earnings of industrial workers.

The Hand In Your Pocket
Even as we face present tax realities, and the enormous war cost, political pressure is being exerted to have the Federal government socialize medicine at a new annual cost of some \$3,000,000,000—three times the amount that would be raised by a demoralizing 10 per cent increase in corporate income taxes now recommended. The reasoning that countenances such dissipation of the nation's resources seem too fantastic to be real.

Fake Price Fixing
Anyone reading the answer of the W. T. Grant Company to the complaint of the Office of Price Administration charging violation of the "no higher price limitation" under Maximum Price Regulation No. 330, would find it hard to believe that such practices are countenanced by the OPA as fair and intelligent regulation. The same charges are made against other leading merchandisers in an endeavor to enforce a regulation confining sales to price lines carried in March, 1942.

For example, the Grant Company operates 492 stores located in 40 states. Under the OPA's ruling, the defendant is denied the right to sell, in four of its stores, dresses in higher price ranges than \$1.29; because that was the price in March, 1942. In four stores the price limit is \$1.59; in 11, \$1.98; in 23, \$2.98; in 47, \$3.98; and so on through a long list. The fact that many of the articles sold in 1942 at a certain price, are no longer manufactured, seems to have no bearing on the case.

But OPA does not prevent a competing store from selling the same dresses at higher prices based on today's manufacturing costs, if the store did not sell such dresses at lower prices in March, 1942. A new store could sell the dresses, based on current costs.

Such regulation socializes established lines of business, and it shakes public confidence in official claims of cost control.

In the interest of the public and sound merchandising, it is to be hoped that the stores will fight this type of inequitable price control through the last court.

Piling Up Taxes
If you own a home and pay taxes, or if you are a renter and pay taxes through the landlord, you have tremendous interest today in the trend toward greater Federal and municipal ownership of property in every community. You are interested for the simple reason that every piece of such publicly-owned property is tax-exempt.

To illustrate: The Federal government and the San Francisco Housing Authority, by acquisition of almost \$1.2 billion dollars' worth of previously taxable properties in San Francisco, have removed those properties from the assessment rolls of San Francisco and made them tax exempt. This means that remaining property in the city must carry an added tax burden of \$155,000 formerly paid by the now exempt properties.

That is just a minor example of what is taking place throughout the country. In some states, the amounts total hundreds of millions of dollars, as is the case in many localities having Federal electric plants.

Every Federal and municipal venture into the field of business, cuts three ways: First, it destroys existing tax-paying industries and substitutes tax-subsidized properties; second, it prevents the expansion and development of new tax-paying properties in the field appropriated; and, third, it adds to the burden of the taxpayers by making them liable for tax obligations of the socialized properties.

Government comes high when it is extended beyond the function of governing.

Labor Sees The Danger
The Yakima, Washington, Herald, in an editorial which is a classic in clear thinking, discusses a principle which affects the citizens of every state. It says: "The United States has the best form of government yet devised by man, and every loyal citizen is moved by its guarantees of freedom and equality of opportunity to support and revere it; but when the government's power is used by designing men to influence the lives of its citizens in activities other than those appropriately connected with national defense, it is the duty of the individual to protest, even to rebel by every lawful means."

"This is the thought behind the decision of the Central Labor Council of Bellingham, which has been endorsed by nine local unions, to oppose the attempt within this state to clothe public utility districts with the power to acquire and administer private power companies. The unions frankly assert that the proposed law, which will be on the ballot in the general election of 1944 under the title of Referendum 25, tends to

PANZER HANGARS
COTTON GOES TO WAR
COTTON CLEAR

place control of the power industry in the hands of Federal bureaucrats and thereby endangers the rights of labor as well as those of industry.

"The future of all Americans, regardless of their economic or political status, will be happy only as the people themselves control the acts of their government. When the people for any reason whatever permit government to govern the economic processes of the nation, they subject themselves to governmental control; then government becomes the master and not the servant of the people.

The present trend within our government is one that discloses to intelligent and observing citizens the encroachment of a governmental system that is different in no important respect from the one now holding large segments of European peoples in economic and political bondage. A nation in economic thrall cannot be politically free."

Town And Farm In Wartime

All "B" and "C" gasoline will be worth five gallons each, compared with the present value of two gallons for coupons of those types in the East and Midwest and three gallons in the far west. This means "B" and "C" books will contain fewer coupons than in the past, but each coupon will be good for more gallons than before.

More Hosiery for Children
Production of infants' and children's hosiery will be stepped up shortly as a result of priority assistance given to manufacturers for procurement of necessary yarn. The WPB action resulted from a falling supply of infants' and children's stockings.

Stop and Mail Early
The public is urged to complete its Christmas shopping this month and to send all packages destined for other cities, whether by parcel post or express, before December 10. Early Christmas shopping and

shipping are necessary this year to enable satisfactory handling of the extra Christmas load.
Step Up Truck Production
A four-fold increase in its 1944 civilian truck production program has been announced by

the WPB. So important is this program that it has been given priority ratings equal to provisions and high ocean gas. Provisions are also made for production of replacement parts for civilian use. In spite of the four-fold increase, the new goal of 123,492 trucks is still far short of the pre-war production of approximately 700,000.
To Store Meat For Spring
A wider variety of rationed meats will be available to the housewife during the low ebb of most production next spring under a rationing plan recently announced by OPA. Meat wholesalers will be loaned points to fill their storage freezers with veal, lamb, mutton and the lower grades of beef between now and mid-January, the peak period of meat output.
Canned Luncheon Meat
Consumers will be able to buy more canned luncheon meat during the coming year, according to the War Food Administration. Canning of this product is encouraged because it prevents waste of good meat and trimmings of meat at packing plants.
Temporary Food Rations
Service men on leave can get temporary food rations without the forms usually furnished by the armed services, according to OPA. In an emergency, application may be made on forms available at local ration boards.

HOLIDAY GIFTS
We have had to make a special effort this year to obtain suitable gifts for the Holiday Season as so many items are manufactured of critical war materials.
We are gratified with what we have been able to accomplish—we are sure you will be pleased with the many beautiful things we have. May we suggest that you shop early.
Our gift shop has been enlarged.

Mrs. D. G. Herring entertained at her home recently with a winter roast and informal party honoring her son, Jimmy, on his eleventh birthday anniversary. Games were played and winners received prizes.

Those attending were Helen Casseaux, Jean LeFevre, Betty Chancey, Jeanne Kent, Kaye Lutz, Jacqueline Berry, Edmund Jameson, C. W. Trosby, Jr., Bobby Williams, Jimmy Dillard, Janie Bracken, Patsy Anderson, Donna Gai Jensen, Margarette Campbell, Charlotte Currier, Gene Herring, Walter Schlechter, Jr., Howard Hill, Hueli Oert, Adrien Reshley, Charles Schoenfeld, Jr., and Alice Fay Herring.

SOUTH BAY BEAN CITY LAKE HARBOR

Mrs. E. O. Walker and Miss Quinon Walker spent the week end in Miami and Mrs. Walker left for Los Angeles to visit her husband who is in the armed services and stationed in that vicinity.

Case Post, son-in-law of Mr. and Mrs. C. J. Brown, is in the Good Samaritan hospital at West Palm Beach suffering from appendicitis.

Mr. and Mrs. Ted Taylor of Pennsylvania are in the Glades for an extended vacation and have visited friends in South Bay.

F. W. Mutteler made a business trip to Miami Saturday.

Mrs. Mary Celly is down from Pennsylvania for a visit with her brother, Leland Ekman and family.

Mrs. H. C. Wilts, Mrs. G. J. Barstow and Mrs. F. W. Mutteler attended the Belle Glade Home Demonstration Club on Thursday.

Mr. and Mrs. R. L. Lovell made a business trip to West Palm Beach recently.

Mr. and Mrs. L. O. Ratley have moved into their new home which they recently purchased from F. L. Franz.

The Women's Society of Christian Service conducted a meeting at the home of Mrs. G. J. Barstow on Thursday. The topic for discussion was the Pan-American Highway and the Spiritual Highway between Latin America and the United States. An article by E. Stanley Jones on his experiences in Mexico was read by Mrs. F. W. Mutteler.

BLESSED EVENT

Mr. and Mrs. Albert Hinson and Mr. and Mrs. Lee Inley of Miami are both announcing the birth of daughters on Sunday, November 14. Mrs. Hinson and Mrs. Inley are the daughters of Mr. and Mrs. Linwood Price of Belle Glade.

CINEMATIC CHATTER

By Malcolm Miller
Cary Grant, teamed with Laraine Day, returns to the Everglades screen with the Owl Show this Saturday, and for a Sunday Monday run. In the cast with this clever pair are Charles Bickford, Gladys Cooper, Alan Carney and Henry Stephenson and they do one of the entertaining pictures of the year under the title "Mr. Lucky." It is a high adventure of the tough-and-guns variety in which a man darts all for a badly needed bank-roll, and a woman matches wits with him to the same end, but their motives are as wide apart as the poles.

Tuesday-Wednesday brings back Simone Simon in an entirely new role in a delightful diversion under the title "Tahiti Honey." Her leading man in this piece is Dennis O'Keefe, and in support of her are Michael Whalen, Lionel Stander, Wally Ver-

FDR says:
I hope Americans will figure out for themselves additional payroll savings.

BONDS OVER AMERICA

Early in the 19th century a storekeeper and general operator at Henderson, Kentucky, took to studying birds as an antidote for ennui and added much to man's knowledge of ornithology. His name is a household word today. It is John James Audubon.

Only the knowledge of Audubon, destruction, killing, maiming, brings one to the surface of Nazism. It has no place for gentle souls; only Hitler, Schindler, von Papen, Heydrich.

Keep On Backing the Attack With War Bonds

non and Tommy Adams. Story goes to the tropics for its locale and with a light plot, winds it way through seventy minutes of music, comedy and portions of suspense.

The Thursday-Friday offering brings Harold Perry, as The Great Gildersleeve of the air, with Nancy Gates, and Darrell and other notables unrolling a funster under the title "Gilder-

John Audubon

lee's Bad Day." Although this doesn't carry a strong plot, the comedy makes up for it and

"Where Friends Meet"

child welfare, public health,
charities and post-war unemploy-
ment.

In support of this he points
out that his reforms in the rac-
ing laws have proven a stabiliz-
ing influence on racing and that
the added five per cent tax on
horse racing in his own Dade
county has raised, with state-
ing federal funds, an extra \$4-
000,000 for the needy aged of
the state. Graham, however, still
insists racing is a business and
therefore legislation should af-
ford legitimate protection to that
business and always make it pos-
sible for it to prosper.

When "doubting Thomases"
question his predictions for
Agriculture, Graham points to his own 6,000
acre farm 18 miles west of Mi-
ami, which by common sense
hard work, he has trans-
formed from a trackless Ever-
glades swamp into one of the
state's most prosperous cattle,
dairy and truck farms.

An engineer in the South Da-
kota gold mines at the outbreak
of World War 1, Graham en-
joyed the true prosperity for which
his state is destined.

HEADACHE
IS SUCH A
BIG
LITTLE THING

ALL SET for a good full day's
work when a nagging head-
ache sneaks up on you. You suffer
and so does your work.

Ready for an evening of relax-
ation and enjoyment—a pack-
age of headache interference with your fun,
rest, enjoyment or relaxation.

DR. MILES

Anti-Pain Pills
usually relieve not only Head-
ache, but Simple Neuralgia, Mus-
cle Pains and Functional
Monthly Pains.

"Do you use Dr. Miles Anti-Pain
Pills? If not why not? You can
get Dr. Miles Anti-Pain Pills at
your drug store in the regular
package for only a penny apiece
and in the economy package even
cheaper. Why not get a package
today? Your druggist has them.
Read directions and use only as
directed. Your money back if you
are not satisfied."

listed in the 30th engineers, U.
S. A., saw 10 months' service
overseas and in 1919 came out
as a captain. He now has two
sons in the service. Following
the war he came to Florida as
manager for a Pennsylvania
Sugar Company, bringing with
him the nucleus of a crew of
1,000 men, most of them war
veterans, to begin the seemingly
impossible task of draining a
piece of the southeast Ever-
glades to grow sugar cane. Sen-
ator Graham believes in the
magic of Florida land and he
stresses the fact that he and a
Michigan man who organized the
American Legion Post in Hialeah
now have been made prose-
perous either directly or indi-
rectly by the land developments
in his own community, and
"there are 30,000,000 acres of
Florida land awaiting develop-
ment by veterans of this war."

Senator Graham, now 58, has
served eight years as Dade's
state senator. He was born in
Creswell, Mich., educated in the
public schools there and later at-
tended Michigan State college
and was graduated by the
Michigan College of Mines. His
wife is the former Hilda Sim-
mons, DuPont Springs school
teacher, daughter of Dr. and
Mrs. Daniel H. Simmons. They
have one son, Bobby, 7, who be-
gan grade school in Hialeah this
year. His other three children by
the first Mrs. Graham, who died
in 1924, are Phil, now a second
lieutenant in the U. S. Army af-
ter enlisting as a private and
graduating from Officers' Can-
didate School; Bill, an enlisted
private now a U. S. Army avia-
tion cadet, and a daughter,
Mary, now Mrs. Lon W. Crow,
Jr., whose husband is in the
navy.

Senator Graham recounted he
probably is first among the
responsible for the election of
Governor Spessard L. Holland
and he praised the present gov-
ernor by saying that his legal
mind had made possible a
needed general law revision
and his tax structure reforms
have been a great boon to Fl-
orida. "That job," said Graham,
"has been done and done well,
now is the time for a practical
and successful business man to
continue this good work by tak-
ing stock of our true resources
and by realizing that only in the
closest cooperation and harmony
between all sections of the state
can we bring to immediate real-

ity the true prosperity for which
our state is destined."

Dr. Charles Harris
Speaker At Club

Dr. Charles Harris of the
Belle Glade Migratory hospital,
staff, was the principal speaker
at the regular meeting of the
Womans Club Wednesday night.
Mrs. Nell Seaton, chairman of
the welfare committee and Miss
Adelaide Perry, co-chairman
were in charge of the program
on welfare. Dr. Harris explained
the arrested and active stages of
tuberculosis and stressed the im-
portance of early treatment of
all cases in order to prevent its
spreading. He explained how a
case may be completely isolated
in the home and not endan-
ger other members of the family.

Miss Perry, head nurse at the
local hospital, pointed out the
far reaching effects of treating
cases among the field and pack-
ing house workers. She said that
many of our foods that are
handled by these people are eat-
en raw, such as celery, tomatoes,
and lettuce, and we are thus
exposed to germs from them. She
reminded the group that even if
they were not eligible to enter
the hospital for treatment, it
does in many cases, help to pro-
tect our homes from disease.

Mrs. Luther Jones presided
over the business session when
the names of Mrs. Otis Hayes,
Mrs. L. M. Johnson and Mrs.
Editha Martin were presented
for membership to be voted on
at the next meeting. Mrs. Ida
Harris was accepted as a mem-
ber. Funds were allowed for the
renewal of magazine subscrip-
tion sent to the Boca Raton
field hospital.

Mrs. I. Miller of Philadelphia,
Mrs. Vincent Draa, Mrs. L. M.
Johnson and Mrs. William
Beckhouse were present. Other
members attending were Mrs.
Clarence Bailey, Mrs. Herbert
Beck, Mrs. J. F. Brown, Mrs.
James Bell, Mrs. Milton Camp-
bell, Mrs. H. O. Earwood, Mrs.
Ralph Freeman, Mrs. G. R. Gor-
don, Mrs. Lee Hayman, Mrs.
Louis Murray, Mrs. Harold Ra-
vkin, Mrs. M. M. Sabiston,
Mrs. Pete Seaman, Mrs. N. T.
Taylor, Mrs. Kay Taylor, Mrs.
B. W. Thompson, Mrs. B. W.
Waddell, Mrs. Ivan Vanhorn,
Miss Rose Thayer, Mrs. Chas.
Harris and Mrs. J. W. Mosley.

GOVT. STABILIZING

(Continued from page 1)
ell from 35 to 50 cents per ham-
per, with blacks, wax, peas and
limas at a higher scale. Another
suggestion was that if labor
was paid at the rate of \$4.00 per
day the beans should be forty
cents, pointing out that when
day labor got \$3.50 per day bean
picking was fifteen cents, and
bean picking was twenty cents
when day labor got \$2.00.

The Board intimated by re-
marks and questioning of wit-
nesses that it is strongly in fa-
vor of wage stabilization. The
Board met Wednesday afternoon
with the avowed intention of
making some recommendation to
the administrator.

In answer to a question as to
when some action might be ex-
pected on whatever his Board
did, Mr. Kramer stated that he
had been promised by Wash-
ington immediate action on their
recommendations. This would
indicate that he will know by
the 1st of the month whether or
not we will try picking beans
and with government enforce-
ment.

The members of the Board at-
tending were L. H. Kramer,
Chairman, Lake Wales, Fla.; H.
G. Clayton, USDA War Board
Chairman, Gainesville; R. A.
Raso, War Manpower Commis-
sioner, Tallahassee and Miami;
W. F. Hollender, Federal State
Statistician, Orlando, Florida;
and Harry Askew, Chairman of
the Citrus Growers Committee,
Lakeland.

As fellow citizens, the Florida Motor

NEED FOR UNITED EFFORT

To win this war we must have
unity of effort. "The do-as-I-tell-you-
not-as-I-do" attitude will never mo-
bilize national power or bring speedy
victory.

This need for united effort was
emphasized by the President in his
recent call for a 40 per cent reduc-
tion in the use of government auto-
mobiles. Take the use of tires and
gasoline by various federal agen-
cies. A report of the Joint Com-
mittee on Reduction of Non-Essential
Federal Expenditures says:

"Despite the growing automobile
crisis, both in lives and gasoline, the
investigation of the committee indi-
cates that for the first four months
of the present fiscal year the various
agencies of the government, exclu-
sive of the Army and Navy, con-
sumed for the most part to use as
many passenger cars, to drive as
many miles, and to consume as
much gasoline as did these agen-
cies in a comparable period of the
previous year, notwithstanding the
efforts of the government to reduce
the consumption of gasoline and con-
serve rubber."

Same Standard for All

"The committee believes that the
same standard of strictly essential
driving should be applicable to gov-
ernment employees as to other ap-
plied to individual citizens."

The committee gives figures upon
which its conclusions are based.

In the last fiscal year the govern-
ment owned 17,500 passenger auto-
mobiles, exclusive of the Army and
Navy and exclusive of trucks and
motorcycles. It now owns 38,800
passenger automobiles.

AMERICA

These words from a recent adver-
tisement are worth reading twice:
"A drum, a little red wagon, a pic-
ture book, these are gifts that bring
joy to a boy's heart. But you can
give him a far greater gift. You can
give him the right to live as a
free American."

Can You Picture
FLORIDA
without Highways?

A strange place it would be—this State
of ours—if our splendid 29,745-mile net-
work of improved highways suddenly
ceased to exist.

A great many communities would be
isolated. Others would find it infinite-
ly more difficult to carry on even the
most ordinary daily activities—with no
trucks on the move, no cars or buses
taking workers to war plants and farms,
soldiers to camp and home on furlough,
business travelers to nearby communi-
ties, children to school.

We Floridians are apt to take for granted
the convenience of our excellent
roads—but these highways didn't just
grow. Building and maintaining them
is a tremendous job and for achieving
this successfully we can thank past and
present administrations and particularly
the Florida State Road Department.

That isn't the whole story, however.
Transforming these lifeless ribbons of
concrete and macadam into live, active
arteries of public transportation has
been the accomplishment of many men
hard and long to give our State a trans-
portation system that compares favor-
ably with any other in the country.

All of us who live and work and pay
taxes in Florida can take pride in our
share in this highway system.

As fellow citizens, the Florida Motor
Lines have made a very large contribu-
tion in the form of license, fuel and
operating taxes—but we feel that our
greatest service is in putting the right
ways to work for the benefit of all who
must travel, making near neighbors
and good neighbors of all the communities
we serve throughout the State.
